

## MAJESTIC PROJECTION INFORMATION

### Static Image / Looping Slideshow

Final image to be displayed is: **1920 x 1080** (16:9 ratio).

Preferred file formats: **PNG or JPG.**

Make sure image is in the highest resolution to prevent pixelation.

Images are due no later than 5 days before the event. The image can be sent via email / cloud file sharing.

Email: **info@Majestic-Advertising.com**

### Powerpoint / Keynote Presentation Requirements

You will provide and present from your laptop via HDMI to the auditorium screen. We are able to support both PC and Mac. HDMI cables and adapters are available. Remote presentation advancer with laser pointer also available upon request.

Presentation Slide Size: **16:9** or **4:3**

Use high-resolution images and embedded high-resolution video.

An on-site check with our projection manager can be requested no later than 7 days before the scheduled event.

### Original Video Format Requirements

The following formats are acceptable (in order of preference):

**DCP** (Digital Cinema Package) | **MP4** | **H.264** | **M4V** | **MOV** | **AVI** | **MPEG2** | **MPEG4**

4K Video is not an option at this time unless it is wrapped in a DCP.

Please provide the highest resolution you can up to 2K\*. The better the resolution, the better it will look on screen.

You may send video media via online storage sharing, for example:

Dropbox | WeTransfer | Vizio | Google Drive

If the file is too large to share via online storage, you may provide a portable thumb drive, external USB drive (formatted for PC/Mac), data DVD-R/BD-R, or DVD/BLU MPEG2/4 (respectively).

Due to quality control, any and all homemade video and/or films (with the exception of a corporate or educational Powerpoint embedded video presentation) need to be processed for the screen. Majestic can not play movies from a laptop or other media player/device.

All media is due no later than 7 days before an event.
